## LA PORTE

Population, 15,000. County seat of La Porte county, located 59 miles east of Chicago, on the New York Central Lake Erie & Western and Pere Marquette Railways; also connected by electric lines with Chicago, Gary, Michigan City, South Bend and all intermediate points. La Porte has a wide reputation as the most beautiful city in the Middle West. A lake country of rare picturesqueness lies adjacent to the city. It is also situated in the heart of a rich agricultural and horticultural country. The farms in La Porte county number 2,700, the value of which is \$30,000,000 and more. The city is rich in beautiful homes and lawns, beautifully paved and shaded streets and substantial public buildings, schools and churches and business blocks and all modern improvements, which reflect the enterprise and progressive spirit of its people. The first cabins were built in 1836 by Richard Harris and George Thomas on the present location of the city. The land on which now stands the city of La Porte was purchased in 1831 at the Logansport sale by Walter

Wilson, Hiran Todd, John Walker, James Andrew and A. P. Andrew, Jr. The first school was built in 1823. The first newspaper was La Porte County Whig, in 1838. La Porte now has 2 daily and weekly newspapers, The Argus and The Herald, 5 banks, churches of all leading denominations, good schools, 1 hospital, 30 manufacturing plants, 25 miles sewerage, 15 miles paved streets, electric and gas lighting systems. Principal productions are heavy farm machinery, woolen goods, pianos, picture frames, bicycles, furniture, live stock, grain, produce, dairy products and poultry. Exp., American, Adams and Wells, Fargo & Co. Tel., W. U. and Postal. Telephone connection. James Terry, postmaster.

### MICHIGAN CITY

Population, 22,000. An incorporated city, located on the southeastern margin of Lake Michigan, in LaPorte county, 12 miles northwest of LaPorte, the county seat, and 52 east of Chicago. Michigan City is served by the Michigan Central, Lake Erie & Western, Pere Marquette and Monon steam railways, the Chicago, Lake Shore & South Bend and Chicago, South Bend & Northern Indiana electric lines, and by the Indiana Transportation Co. steamship line. An adequate system of local street cars is also operated. Michigan City was founded in October, 1832, by Isaac C. Elston and associates.

Its business men are alive to its opportunities and offer to all industries seeking location, strong inducements as to location, power, transportation and freedom from labor troubles. As a summer resort Michigan City is becoming more popular each year, having an attractive park, good hotels and one of the finest bathing beaches in the world. In summing up Michigan City's points of interest, we quote from the August, 1915, special edition of the Michigan City Evening News: Pure water supply; free public library; 7 ward schools; Indiana State Prison; 4 steam railroads; paid fire department; 5 first class hotels; 4 prosperous banks; 2 daily newspapers, the News and Dispatch; abundant electric power; new modern high school; 3 express companies; 2 telegraph companies; only 1 telephone system; 1 well equipped hospital; modern government building; 2 electric lines; beautiful city park, 50 acres; scores of passenger trains daily; freedom from labor troubles; new \$100,000 citizens building; 2 building and loan associations; 1 mile boulevard lighting system; \$150,000 court house and city hall; Haskell & Barker car factory, the greatest of its kind in the world, employing 4,000 men, and many other manufacturing plants and wholesale houses. C. & St. L., L. E. & W. and the C. C. & St. L. and by 2 electric lines, the T. H., I. & E. T. Co. and the U. T. Co. of Indiana. Newcastle is a prosperous growing city, and being surrounded by a fertile farming country, combined with large local manufacturing interests and a progressive pushing citizenship, it is certain to grow in size and importance until it shall rank in every way as one of the first cities of the state. The city is one of beautiful homes, modern business blocks and public buildings. It has paved streets and a municipally owned light, water and sewer systems. Newcastle claims the distinction of being the home of the long stemmed American Beauty rose, from which fact it is often termed the "Rose City." Rose culture forms an important factor in the city's industry, having several large greenhouses covering acres of ground from which car loads of roses are shipped to all parts of the United States. Important among its industries is the manufacture of automobile parts, pianos, kitchen cabinets, caskets, bridges, flour, laths, planing mills and handles. The Indiana Village of Epileptics is located here. Newcastle has good schools, churches of the leading denominations, 4 strong banks, the press is represented by 2 daily papers, the Courier and the Times and 2 week-
